

Three Days Training Programme on
Unleash the potential of Assets Through Effective Asset Management. An ISO 5500x-2014 way
Asset Management Awareness & Application (An ISO 5500x-2014)
16-18 Jan 2020@Mumbai and 18-20 March 2020@Delhi

What is it?

ISO 55001 Asset Management is the new standard which supersedes PAS 55. The key difference between the two is that whereas PAS 55 focused on physical assets only, ISO 55001 reflects a consideration of all types of financial, physical and organizational assets. If your organization has multiple assets at the heart of its' business, you will know that an effective management strategy should contribute to better operating results, performance and improving your bottom line.

Why do I need it and who should attend?

This comprehensive one /Two day course explores in depth the organizational implications of the international standard for asset management (ISO 55001:2014). The course aim is to explain the main requirements of ISO 55001:2014 and its organizational benefits. Those with an interest or responsibility for physical or other assets, planning, risk management, resourcing, operations, technical services, information support, budgeting, quality management or organizational development would find this course beneficial.
