

Two Days Training Programme on

RELIABILITY CENTERED MAINTENANCE (RCM)

22-23 JAN 2018@NAGPUR

The Reliability-Centered Maintenance process presented here is used to apply RCM techniques to identify applicable and effective preventive maintenance tasks in support of a Condition Based Maintenance program. It also allows the user to develop and document rationale and justifications for preventive maintenance task recommendations.

Overall course objectives:

Upon completion of this course participants will be able to:

1. Describe the RCM theory.
2. Correctly apply RCM principles in development of a Planned Maintenance System
3. Understand the use of RCM principles in the continuous sustainment of a Planned Maintenance System

Time Table & Course Content of Reliability Centered Maintenance (RCM):-

Day -1: Session -1

Maintenance Strategy to practice under different situations.

Session -2

Developments & Adopting Modern Maintenance Approach.

Functional Failures and Failure Effects

Failure Consequences

RCM Actions

State the 3 different RCM actions to be evaluated for implementation based on failure assessment.

Session -3

.Predictive Maintenance philosophy

& RCM (Reliability Centered Maintenance) Approach.

Session -4

Understanding root cause of Equipment failures under different situations.

Day -2: Session - 1

How to prevent equipment (fixed or mobile) failing before planned replacement?

Session -2

Pro-Active Maintenance Approach & strategy for Component Life Enhancing Activities.

Discuss the purpose of performing Functional Failure Analysis (FFA)

Session -3

1. Failure Modes and Effects Analysis (FMEA)

- Documenting Failure modes and effects
- Rationale and Justification: Why we made these choices.

Session -4

2. Decision Logic Tree

- Types of Failures and Failure Consequences
- The three RCM related actions
- Using the Decision Logic Tree

Certification: Every successful participant will be awarded a course completion certificate.

Delivery Methodology (Strategy):

- Introduction and Objective Setting

Centre For Industrial Solution and Advanced Training
