ADVANCING FROM AN OPERATIONAL MANAGER TO A STRATEGIC LEADER and TEAM BUILDING & COLLABORATION

A 5-Days Residential Influential Leadership Development Program

 **Date:** 26-30th May 2025 |  **Venue:** Andman

"Leadership is not a matter of authority, it is a matter of influence. A true leader teaches others to understand more, motivates them to be more and inspires them to become more".

Objective and Description:

Great teams build great organizations. Collaboration isn't just a necessity—it's the foundation of growth and success. While not everyone is naturally skilled at team building, the right guidance and training can nurture this ability in anyone.

The Leadership Development Program is designed to shape future leaders, with team-building at its core. Success in leadership depends on six critical factors: Influential Behavior, Effective Communication, Strategic Thinking and Action, Self-Awareness, Resilience, and Learning Agility.

This program takes a hands-on approach, using dynamic activities to help participants not only understand these key leadership traits but also apply them in real-world scenarios. By developing these skills, individuals become empowered leaders who drive their teams—and their organizations—toward excellence. The program is designed to understand and achieve these required attributes through various activities.
